SUMMARY

AI & Machine Learning student skilled in Python, Computer Vision, and NLP with hands-on experience building real-world systems including OCR-based assistive tools and AI proctoring solutions. Strong in model development, data preprocessing, and evaluation. Seeking an AI/ML or Software Internship to apply problem-solving skills in real-world applications.

Passionate about building practical AI solutions with real-world impact.

TECHNICAL SKILLS

Programming: Python, Java (Basic)

Machine Learning: Supervised Learning, Model Evaluation, ARIMA

Computer Vision: OpenCV, Face Detection, OCR

NLP: TF-IDF, Text Classification

Libraries: NumPy, Pandas, Scikit-learn

Tools: Flask, Git, Jupyter

PROJECTS

AI-Based Online Proctoring System (Computer Vision Project)

- Developed a real-time AI-based proctoring system using OpenCV to detect face presence and suspicious activities
- Implemented automated alert generation, improving monitoring efficiency
- Achieved accurate face detection in real-time scenarios (Accuracy = ~85-92%)

Sentiment Analysis using NLP & Machine Learning

- Built NLP model using TF-IDF + ML algorithms for sentiment classification
- Achieved high accuracy in classifying positive/negative text data
- Evaluated using confusion matrix and performance metrics

Anomaly Detection using ARIMA

- Developed time-series forecasting model (ARIMA) for anomaly detection
- Performed stationarity testing and residual analysis
- Identified abnormal trends in sequential datasets (Accuracy = ~80-85%)

Smart Reading Aid for Visually Impaired

- Built OCR-based assistive system to convert printed text into speech for visually impaired users
- Integrated camera input + text-to-speech pipeline
- Designed user-friendly accessible workflow (Accuracy = ~90-98%)

ADDITIONAL INFORMATION

Certifications & Courses:

- Oracle Cloud Infrastructure 2024 Certified Foundations Associate
- AI-ML Virtual Internship – Google for Developers (10 Weeks)
- Blockchain Specialization – University at Buffalo (Coursera)
- Agile Project Management – Google (Coursera)

EDUCATION

Bachelor of Technology (BTech) – Artificial Intelligence & Machine Learning 2023 – 2027

Pimpri Chinchwad University

- Core coursework in Artificial Intelligence, Machine Learning, Data Structures, and Algorithms.
- CGPA: 8.86 / 10
